

# ELASTIN

An organic, natural joint supplement

## What is it?

An organic, natural liquid joint supplement. Ideal for any horse or pony with stiffness, gait or mobility issues e.g. arthritis. Factors affecting a horse's mobility can be age, weight, lifestyle and any genetic predisposition.

Elastin can be given to any age and any type of horse or pony from those racing, in competitions or just being ridden, to those retired.

This product will really help with normal joint and muscle mobility and function.

## Symptoms of joint problems

Constant wear and tear of the joints over time causes inflammation and erosion of joint surfaces. Older horses also lose some elasticity of tendons and ligaments, as well as thinning of the joint cartilage. The condition of a horse's joint dramatically affects mobility and performance. Symptoms of changes to the joints can be subtle. Look out for a shortened stride, hollow back or raising of their head. Horses with hock problems may hitch their back legs up when walking. Your horse may struggle to lift legs for the farrier/ getting hooves picked out. They may also show lameness.

Your horse may not want to do tasks that they previously found easy e.g jump. They may feel/look stiff at the start of a training session, which goes away as the session progresses. There may also be puffiness, heat or pain around a joint.

## What does Elastin do for your horse?

ELASTIN is an assembly of untransformed plant materials, which has been shown to rebalance osteoblast and osteoclast populations, thereby improving joint mobility.

Our herbs are specially selected for their anti-inflammatory and soothing properties. They also help maintain normal mobility after hard exercise or competition and maintain good immunity. Elastin is also an ORGANIC product and works in harmony with the body without stressing internal organs.

You will see an improvement in mobility, flexibility, soundness and performance. Your horse will be brighter and more willing and happier to be exercised.

Information about the herbs found in Elastin are listed below:

Herb	Latin name	What does the herb do?
Ginger	<i>Zinzibar officinale</i>	Anti-inflammatory, anti–arthritic
Indian ginseng	<i>Withania somnifera</i>	Anti-inflammatory, lowers cortisol levels
Guduchi vine	<i>Tinospora cordifolia</i>	Anti-inflammatory, anti-arthritic, antioxidant, boosts immune system
Frankincense	<i>Boswellia serrata</i>	Anti-inflammatory, anti–arthritic
Liquorice	<i>Glycyrrhiza glabra</i>	Anti-inflammatory
Tumeric	<i>Curcuma longa</i>	Anti-inflammatory, anti–arthritic, anti-oxidant
Fenugreek	<i>Trigonella foenum-graecum</i>	Anti-inflammatory, anti-oxidant
Indian gooseberry	<i>Emblica officinalis</i>	Anti-inflammatory, anti-oxidant

## What conditions can it be used for?

- Arthritis e.g. knees, hocks, fetlocks etc.
- Ligament damage
- Tendon damage
- Stifle issues
- Lameness
- Ringbone
- Sidebone
- Navicular
- General joint, ligament and tendon maintenance

## Testimonials

### Stifle issues

Janine Bushell Hi Ron, I have used just about every known joint product on the market as my event horse suffers from meniscus displacement in his stifle. Noticed a post on fb regarding Elastin, read up about it on line and ordered my first batch. Noticed a difference in his way of going after about 5 days and he continues to improve, so much so that he had his first little jump over poles yesterday and loved it. He must like the taste too as he is a fussy eater and he has never noticed that this was even added to his feed. I have a second horse arriving next week with a crack in his hoof and will be looking into what products you have that will give him a nice boost in his new home! Can't recommend Elastin highly enough.

Thank you very much for the Elastin we received today, fantastic product and fantastic service. I have already seen a change in my horse (he has two displaced stifles and we have tried many things however, this seems to be working already !

Kind regards

Amy Bushell

## Arthritis

Having used joint/anti stiffness products for some years without a huge amount of success I came across Elastin a while ago and have been very impressed. My 19 year old gelding, who has arthritic hocks, can now use his back and neck more correctly so has muscled up nicely and is over tracking by at least 4 inches where he could barely track up before. Thanks for Elastin.

Chris

I am quite amazed by the difference in my 22 yr-old Eriskay pony mare since she has been having Elastin - she is much more sprightly and just brighter generally. I also started my 14 yr old Eriskay pony gelding on Elastin as he was becoming fidgety and unco-operative when having his feet trimmed and looked as if he was struggling to find a comfortable position in which to stand and balance with his foot lifted. I am extremely relieved that he now appears to be back to his old self, relaxed and happy while having his feet done, and lifting the relevant foot automatically. Powerful stuff, indeed.

Ron I have put a post on my wall highly praising Elastin, my goodness my old boy has stopped "pointing" and is free in his movement! I know your stuff is good but OMG!! Only

4 days its amazing, I know I cannot arrest old age degeneration but I can make his last years good, he is a retired 3 day eventer aged 35yrs thank you thank you. I will contact soon for a restock of Elastin

Regards Irene

Wow! Truly amazing difference in my mare. She would completely shut down after 20mins of riding, would not move. Crabby when tacking up, circling in stable when putting saddle on. Trying to bite when putting a rug on! After a few days of the ulcer treatment I have a changed horse. She now stands still when tacking up, don't even need to tie her up. Now loves attention and cuddles. She's only been on this for a month now and now I know she is feeling better I took her to a Geoff Billington lesson and she was awesome! I'm keeping her on this natural treatment for sure. I also bought the silent 4 and remount for my older TB gelding which is also brilliant! Ron is so helpful and knowledgeable!

Can't recommend this product highly enough. Both horses have been on it for some time now and my 25 year old rescue mare has never been better, even the trimmer comments on how much more flexible she is than when she arrived with me two years ago. Sue Gould-Wright

Made a huge difference to my 26 year old – still in full work 5/6 times per week & showing now sign of slowing. Loves his pole work & is so mobile – this has made a big difference. Thank you! Splodges owner.

Great products. I have started using Elastin for my older horse to keep him active and mobile. Seems to be doing a great job so far. Su Morgan

\*\*\*\*\*

Elastin enabled my elderly horse to compete again. It gave him a new lease of life! Elaine Chambers - Stroud

\*\*\*\*\*

This is by far the best product on the market for horses to maintain good mobility. My elderly stallion is still his happy self! Steve Brightwell.

I was lucky enough to win a hamper full of products from Animal Herbal Health last November. Since then I have had my old boy retired army horse, Crabby, now 23 on the Elastin. Last winter I had a problem with him stiffening up. This winter he has sailed through with no problem at all.. Jenny Brown, Devon

Thank you for completing my order of Elastin, and for the additional amount, it is much appreciated. I am quite amazed by the difference in my 22 yr-old Eriskay pony mare since she has been having Elastin. I also started my 14 yr old Eriskay pony gelding on Elastin. Very happy with the results.. Ruth McMinn

My 18 year old 17hh gelding Guinness so much more comfortable enjoying his retirement. I would HIGHLY recommend this product! Carly Downs

\*\*\*\*\*

My horse has been on this for 2 weeks – brilliant results. Tania Ruggles

\*\*\*\*\*

I have been using Elastin for the past three months and I have seen a visible change in all my horses. I would add that Elastin has rejuvenated all my horses. A big thank you for the level of service Ron's team has given. Tony Sutton

I have to say that the elastin you gave me is amazing My horse moves so much better and he is really happy and confident too. I use it together with the UlcEx30 Plus. It's absolutely brilliant

Thank you xx
